

Active Response Technology™	Real Memory Foam	Foam Injection Technology	SoleFlex™ Technology
<p>While the use of memory foam and other form-fitting foams has been the latest in foot comfort technology, Zee Alexis combines a lasting blend of stability and comfort with Real Memory Foam and Foam Injection Technology.</p>	<p>Support is essential for proper foot health and correction. Real Memory Foam promotes proper moisture absorption and optimal breathability needed for the foot.</p>	<p>This technology provides the deepest feeling of comfort for your feet equaling eight times the effect and four times the durability of other footwear brands.</p>	<p>With the use of this technology, the soles of all Zee Alexis shoes, bend and flex with the foot, creating lasting comfort and making it feel like you're walking on a cloud.</p>

**Footwear Testing:** Zee Alexis shoes passed three tests that assessed the quality of their materials and components.

Shape Retention Test	Sole Adhesion Test	Flex Test
<p>The retention in the shape of the shoe sole after compression is tested and checked under standard conditions.</p>	<p>Adhesion strength of sole at the toe and heel is assessed through this test.</p>	<p>This test determines the resistance of a component material during repeated flexing.</p>
