# ZIERA'S MULTIPLE WIDTH FITTING SYSTEM

Get the perfect fit every time, with our new multiple width fitting system. Ziera's uniquely contoured and cushioned inlays are a key element to our superior comfort. Now in selected styles you get different forefoot inserts to tailor the fit to your individual needs.

Look for the FF code in the shoe to identify Your Feet Your Fit styles.

## SHOES TOO WIDE?

Swap in the thicker green forefoot inserts provided to make the shoe a narrower fit, you can keep the grey ones in too if that gives a better fit.

## A PERFECT FIT?

No need to change anything if these fit perfectly straight out of the box - you're good to go.

## NEED MORE ROOM?

Remove the forefoot inserts to create extra wiggle room.

## NEED EVEN MORE ROOM?

Remove the footbed and forefoot inserts to give extra wiggle room, you can buy a 3/4 refined comfort footbed to give extra support.
